Enter an all-new FIFA universe where every move, goal and tackle brings a deeper and more meaningful connection to the sport than ever before. Dynamic Player Intelligence and Real-World Awareness combine to make each player more intuitive, tactical and intelligent than ever

before. Real Touch Controls allows players to control the ball, defend and attack with one hand. With new Moments of Magic, Real Player Balance and improved, player-first gameplay the all-new FIFA experiences the game so close to reality, it feels like you're in the moment.

What's New Depth of Play The new Depth of Play approach delivers unprecedented gameplay flexibility by integrating intelligent and robust gameplay to each player, on both offense and defense, on every single pitch in any given moment of play. Players react faster, seek and take advantage of the ball at all times and exploit the weaknesses of their opponents in ways that weren't possible before. With new Tackling AI, improved dynamic Finishing, an improved Ball Control Engine, the new Depth of Play delivers unmatched intensity and player intelligence.

New Interactive Player Intelligence Enhanced Player Intelligence, the game's new engine, enables a deeper connection to the world of football with more intuitive gameplay, quicker decision making and heightened creativity. Each player reacts smarter, more aggressively and with more intent on the pitch, resulting in a more realistic game experience

and longer-lasting connection with the sport. The new engine also delivers unprecedented player intelligence, meaning that every player and player type is now more intelligent, tactical and sophisticated on the pitch, creating more variety in gameplay. New Player Perception Leveraging technology we created for the 2018 FIFA World Cup™, the new Player Perception system improves and enhances the perception of players in the game, adding more emotion, drama and authenticity to your FIFA experience. More players on the pitch means more drama. The new player perception technology also reacts to the presence of atmosphere with authenticity and recognition of emotion at the most heightened time periods, ensuring that players, games and moments are more visually dramatic and moving. Dynamic Finishing The new Finishing engine lets you complete great goals from more angles, positions and distances than ever before. Every single touch of the ball leads to the kind of realistic and compelling reactions you want from the game. Refining the Turning Technique As players have been able to turn faster in FIFA 20, the Turning technique has been refined to be more
