Astro Vastu is the process of analyzing one's horoscope and connecting it with his or her "home." Currently, there are 9 planets, 12 houses, 12 zodiac signs in Hindu astrology and these can be connected (mapped, linked) to 5 elements, 16 directions, and 32 entrances in Vastu. By identifying planets, houses, and Vastu directions, users can view the positive and negative effects the planet can have on various houses, as well as other planet-to-planet aspects. The app is created based on the principles of Krishnamurti Paddhati and uses the Placidus system for house division found in most western astrology branches. To get started with the app, users must first pick their location from the Settings section accessible from the Client Manager main window.
