Includes easy navigation with comprehensive. DimensionA® is a database software for storing metadata, including tracking and.Rodrigo Rojo. Image from Cubadeportes Twitter account. An interesting piece from the Los Angeles Times talks about a lighter-weight way to train for the marathon. One of the most important pillars of training for runners of any kind is the use of a marathon training plan. It includes constantly working on improving the distances that you are able to run, often with the use of a watch that keeps track of the distance. It's known that the intensity of training must be gradually increased in order to avoid problems of overtraining, but in recent times have also been seen the use of specific workouts in order to reduce the lactic acid accumulated in the muscles. Just as well is to train in a sport centre. It is well known that the structure of the indoor track, with which a jogger
